Programming Skills

IT Skills

Meirunas Smitas

Front End Development Assistant

Having developed a solid web, database, and software development skillset and following a professional and organised approach I have successfully met many University requirements and company targets. I resulted in a proven track record with 10 projects and 75 University assignments with very positive feedback from supervisors and personal tutors.

I am highly qualified with a 1st-class BSc degree in Computer Science and a PGCert in Computer Science from, the globally top tier University, Queen Mary with strong programming, communication and teamwork skills developed through work experience as Frontend Developer. I am currently seeking a full time Frontend Developer role in a UK-based SME.

Skills

Web Development

- Frontend development experience in HTML, CSS with Bootstrap framework, and JavaScript with jQuery and React framework on WebStorm IDE having developed an entertainment website.
- Web development experience in PHP and MVC design pattern having developed a Holiday website having flights and hotels databases as backend and a virtual assistant with the PhpMyAdmin database administration tool and the full-stack Laravel PHP framework.

Software Development

- Experience with local and online relational databases, SQL and MySQL and related software, MS Access, Oracle SQL Developer, having created a database for a company hiring out audio equipment, and the non-relational database MongoDB having developed an airlines database.
- Java skills applied on timer and vehicle park manager applications written with NetBeans IDE.

IT

- Wireframe and mockup prototypes with proto.io, Adobe Photoshop and XD.
- Experienced in Virtual Learning Environment Moodle in my undergraduate and postgraduate studies.
- Competent in Microsoft Excel, Word and PowerPoint including reports and presentation slides
- Git version control system when uploading my portfolio.
